DANIELSON AND PUTNAM NEWS

DANIELSON

Post Lee L'Homme, No. 21, American Legion, Connecticut, is the name adopted for the organization formed in this town. The brave young soldier for whom the post has been named was a resident of Attawaugan at the time he entered the service and he gave his life while fighting in France a short time before the armistice was signed.

The big sale of Holstein cattle conducted at the Kimball farm on Wood's hill in the town of Brooklyn attracted buyers from many sections of New England. At the sale 77 head of cattle were disposed of, the lot including calves, yearlings and cows. The animals went at from \$50 to \$350, the high prices being brought by thoroughbred animals and the sale amounted to \$7755, it was stated on Thursday.

Remember the Civic Federation! Saturday will be Tag day in Danielson. Give until it hurts for the slogan still holds.—adv.

What is the matter with Killingly's property owners? It was stated on Thursday morning at the office of the assessors in the town hall building that as yet only about 25 per cent. of the property owners of the town have filed their tax lists, as they must do before November 1, or suffer a penalty of ten per cent.

In some quarters an impression seems to have gained ground that no lists will be filed by public subscription. The assessors have recently completed a general revaluation of the town's property. This is entirely erroneous. The lists are being filed in accordance with the requirement that lists be filed. This duty must be complied with this year the same as in any other year.

Unless there is a quick response to the call for filing lists, the assessors will be swamped with work in the last minute rush that is certain to ensue, and then taxpayers cannot possibly be given the special attention that the assessors can accord them at this time.

Announcement was made of the sale of what is known as the Rickard house on Broad street by Mrs. J. A. Paine to Arthur Lacombe. This dwelling is said to be one of the oldest, if not the very oldest, residence in Danielson, and is a splendidly placed harking back to late colonial days. It was erected in 1735, it is said, and yet is in a remarkable fine state of preservation, a testimonial to the excellence of the work done by builders in the days when the town was a frontier town.

The mystery of the motorcycle found abandoned near the home of John Reed on the West Side was very quickly solved. It was found to be the property of Michael Espinosa, of Brooklyn, had left the machine where it functioned properly and was intended to come back after it when his day's work was completed. In the meantime it had been taken away and stored for safety.

Putnam people are being urged to send in their contributions to the Day Kimball Annex Fund. Putnam is far behind in its quota in the drive. The fund is for the purpose of building an addition to the Day Kimball hospital. The state appropriated \$25,000 at the last session of the legislature conditioned that a certain amount be raised by public subscription. The manufacturers made up half or more of the amount needed and there are now several thousand to be raised by popular subscription.

Catarrh Of The Stomach Is Dangerous

"Thousands Have It and Don't Know It," Says Physician. Frequently Mistaken for Indigestion—How to Recognize and Treat.

"Thousands of people suffer more or less constantly from furrowed, coated tongue, bad breath, sour, burning stomach, frequent vomiting, rumbling in stomach, bitter eructations, gas, wind and stomach acidity and call it indigestion, when in reality their trouble is due to gastric catarrh of the stomach," writes a New York physician.

Catarrh of the stomach is dangerous because the mucous membrane lining of the stomach is thickened and a coating of phlegm covers the surface so that the digestive fluids cannot mix with the food and digest them. This condition soon breeds deadly disease in the fermented, unassimilated food. The blood and the body are poisoned. Gastric ulcers are apt to form and frequently an ulcer is the first sign of a deadly cancer.

In catarrh of the stomach a good and safe treatment is to take before meals a teaspoonful of pure Bismarck Magnesia in half a glass of hot water as hot as you can comfortably drink it. The hot water washes the mucus from the stomach walls and draws the blood to the stomach while the Bismarck Magnesia is an excellent solvent for phlegm and mucus.

The Bismarck Magnesia will serve as a powerful laxative and harmless which will neutralize any excess hydrochloric acid that may be in your stomach and excrete its food contents. Easy natural digestion without distention of any kind should soon follow. Bismarck Magnesia is not a laxative, is harmless, pleasant and easy to take and can be obtained from any local druggist. Don't confuse Bismarck Magnesia with other forms of magnesia salts, but get the pure Bismarck Magnesia in the form of powder or tablets, especially prepared for this purpose.
